

Skylight Replacement Form

BB Roofing strongly suggests that you replace your skylight(s) during the re-roof process. Skylights 10 years and older typically are no longer warranted by the manufacturer, and simply re-flashing the existing skylight(s) does not guarantee a watertight installation. New VELUX Skylights feature several advanced energy-efficient design features, including LowE-3 glass and several solar-powered blind options. VELUX Deck Mount and Curb Mount Skylights installed with an approved VELUX flashing kit come with an industry leading Manufacturer 10-YEAR NO LEAK PRODUCT AND LABOR WARRANTY.

I would like BB Roofing to replace my Skylights.

YES NO

If NO: The homeowner accepts full responsibility for the existing skylight(s) and is responsible for any problems or issues that may develop as a result of leaving existing skylights in place.
